5/12/06 A06-04-012 Pacific Gas and Electric Company, for approval of long-term request for offer results and for adoption of cost recovery and ratemaking mechanisms.

Summary: On May 10, 2006, Michel Peter Florio, Senior Attorney for The Utility Reform Network, met with Pres. Peevey, and on the same day, while waiting for his meeting with Pres. Peevey – encountered Cmmr. Grueneich, in San Francisco. Thereafter, on the same day of May 10, 2006, Florio had a telephone conversation with Cmmr. Grueneich. During the meeting with Pres. Peevey, written material (attached to the notice) was used. At the meeting with Pres. Peevey and during his telephone communication with Cmmr. Grueneich, Florio expressed concerns about the criteria employed by Pacific Gas and Electric Company (PG&E) in choosing between utility-owned turnkey project and Purchased Power Agreements with third-party owners. Florio also noted that PG&E had significantly exceeded its target level of megawatts procured in this RFO.

5/15/06 R04-01-025 Order Instituting Rulemaking to establish policies and rules to ensure reliable, long-term supplies of Natural Gas to California.

Summary: AUGMENTATION REQUIRED. On May 10, 2006, Marzia Zafar, CPUC Relations Manager for Southern California Gas Company (SoCalGas) and San Diego Gas & Electric Company, met with Belinda Gatti, advisor to Cmmr. Brown. Written materials (attached to the notice) were used. Zafar urged the Commission to not impose an overly restrictive Wobbe number because up to thirty percent of SoCalGas' existing supplies may have to be eliminated. Referring to the South Coast Air Quality Management District's proposal, Zafar stated that the potential NOx emission increase due to the use of LNG-derived natural gas would be one tenth of one percent of total South Coast Air Basin emissions and the air quality impact would be expected to be negligible. Zafar stated that setting an artificially low Wobbe Number is not a cost effective way to address the potential change in emissions.
